

QVARTZ RECRUITMENT DAY  
COPENHAGEN, MARCH 22

# “Be yourself; everyone else is taken”

- Oscar Wilde

Josefine Riber is one of our talented full-time consultants with a background in finance and strategic management. With strong analytical skills and tons of curiosity, she explores the world and broadens her horizons by working with different people and solving interesting and complex problems. Besides this, she has a big heart that beats for driving CSR initiatives in QVARTZ. For our next Recruitment Day in Copenhagen, we are looking for more unique individuals like Josefine who want to join our civilization.

Whether your line of study is business, engineering, science or something completely different is not the decisive factor. We are looking for empathetic and curious master's students who:

- Have a curious and creative mind combined with strong analytical skills
- Are characterized by a high level of drive and thrive in an entrepreneurial environment
- Possess a solid balance of intellectual capabilities and excellent people skills
- Have strong academic records and big hearts that beat for management consulting and for building the QVARTZ civilization

Apply online at [www.qvartz.com/career](http://www.qvartz.com/career) no later than February 12, 2019 by uploading your CV, grade transcripts (M.Sc., B.Sc. and high school) and a cover letter in English.

Selected candidates will be invited to a personal interview. If you and QVARTZ both believe there is reason to continue the process, you will be invited to a full recruitment day on March 22, where it is just as important for you to get to know us as it is for us to get to know you. You will meet potential new colleagues and through both individual and group case exercises and partner interviews, you will experience some of the challenges that a management consultant faces. The recruitment day will take place at our office in Ryesgade, Copenhagen N.

If you have any questions, please reach out to Susanna Hassby at [susanna.hassby@qvartz.com](mailto:susanna.hassby@qvartz.com).
